Subject: Non-compliance in Uploading Internal Assessment and Practical Marks - Reg.

It has been observed with grave concern that, despite clear instructions and adequate timelines provided for uploading internal assessment and practical marks on the University's examination portal, some affiliated colleges continue to commit serious lapses.

The portal provides sufficient opportunities to review and verify the accuracy of data before the marks are locked. Nevertheless, instances have come to light wherein colleges, after the declaration of results, submit manual corrections citing clerical errors or lack of awareness regarding the applicable scheme of examination. In certain cases, marks have been awarded out of an incorrect maximum (e.g., 50 instead of 100).

Such actions compromise the integrity and sanctity of the examination system, raising serious concerns about the diligence and intent of the institutions involved. These practices not only undermine the credibility of the evaluation process but also adversely affect the academic standing and mental well-being of students.

The University views this matter with utmost seriousness. Going forward, no requests for correction or submission of offline internal assessment or practical marks will be entertained after the declaration of results, under any circumstances.

All affiliated institutions are hereby strictly instructed to ensure that internal assessment and practical marks are uploaded accurately and in strict adherence to the prescribed scheme of examination. Any deviation or error will be the sole responsibility of the respective department/college, and appropriate action may be initiated as deemed necessary.

This communication may be treated as **MOST URGENT**.
